

## Chart Challenge

What would we do without charts? They're one of the most fundamental parts of flying—but they can also be challenging to interpret, difficult to read, and sometimes head-scratchingly confusing. The Chart Challenge is meant to help you master them. This refresher covers everything from VFR sectionals to instrument approach plates, and digs into the practical issues that come with them. The seminar covers challenging questions about specific VFR and IFR charts, real-world procedures and decision making, analysis of tragic accidents caused by chart misinterpretation, and important “gotchas” that all pilots should be aware of in the NAS.

**Directions:** Fly in, Identifier IWS, Unicom 123.05. Driving, from the east take I-10 to the west, get off at Exit-Barker Cypress. Turn North, at the fourth light take Groeschke Road to the right, at the flag turn to the left. We will be in the terminal upstairs.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details

**Tue, Nov 24, 2015 - 19:00 CST**

**West Houston Airport**

18000 Groschke Road

Terminal Building

Houston, TX 77084
